Watch Out Queensland !!

Complete Technology Integrations is pleased to announce the opening of our Brisbane branch office.

The office is located at 690 Brunswick Street, New Farm – just minutes from the CBD.

Our Queensland operations are headed by Craig Warner who has many years of automation experience.

Craig will be available for all enquiries regarding lighting control systems for commercial, industrial & apartment projects.

Craig can be contacted on his mobile 0405 111 330 or craig.warner@ctia.net.au.

The office numbers are:

Phone: 07 3358 5585

Fax: 07 3358 5535

New range of Touch Screens

CTI now offers the CommBox Elan range of Touch Screens. They are available in free standing (*above*) or wall mounted with a flush stainless steel frame.

We recently completed a major project which used the flush 15" colour touch screen to provide total lighting control, blinds, air conditioning, security, scenes and video intercom.

For more information call CTI today on 02 9887 1000

Cable it Right !

Each automation system has its own cable that must be used to ensure manufacturers technical compliance.

If its HPM iControl make sure you use the 240V rated figure 8, PN: H2FIG8. If it's C-Bus use the Clipsal 240V rated pink Cat5 4 pair PN: 5005C305B.

For cable supply call CTI

Welcome Aboard

In June we welcomed Sue Stewart to our head office. Sue joins CTI as office manager responsible for all accounts and general office operations.

Sue is based in our North Ryde office and she can be contacted on 02 9887 1000 or by email on sue.stewart@ctia.net.au
